

Mental Health Resources for Youth and Caregivers

Community
Mental Health
Action Plan

It is estimated that 10-20% of Canadian youth are affected by a mental illness or disorder – the single most disabling group of disorders worldwide.

Students and youth have now also faced an unprecedented year of incredible challenges and changes. With the ongoing stressors of isolation, uncertainty and anxiety due to the pandemic, it is more important than ever to prioritize the mental health of young people in our community.

Those in the role of caring for others, have additional challenges. Being able to provide care for others means that caregivers also need to look after their own well-being

Below are some local mental health resources for youth and caregivers. Click on the project name for more information.

Mental Health Resources

- **ArTeMo**
(youth and caregivers)
The Africa Centre's ArTeMo project provides tools & strategies to address barriers to the Mental Health & Wellbeing of Black Canadians.
- **The Parent Information Series**
(caregivers)
The Parent Information Series by Alberta Health Services is designed to answer frequently asked questions and give parents factual information that may help their prevent children from using drugs, help them make healthy lifestyle choices and support them in making changes in their lives.

- **Kids Help Phone**
(youth)
Kids Help Phone in partnership with Wellness Together Canada have created a number of interactive self-assessments tools and articles to help them navigate their mental health.
- **Text4Hope**
(youth and caregivers)
The Mental Health Foundation, in collaboration with their partners is supporting a new Alberta Health Services program Text4Hope – a free service providing three months of daily Cognitive Behavioural Therapy (CBT)-based text messages written by local mental health specialists.
- **Recovery College**
(youth and caregivers)
The Canadian Mental Health Association's Edmonton Recovery College provides free courses that help develop resourcesfulness. There are courses for anyone, youth, and family, friends, and parents.

Mental Health Fast Facts

- In Canada, only 1 out of 5 children who need mental health services receives them.
- Once depression is recognized, help can make a difference for 80% of people who are affected, allowing them to get back to their regular activities.
- Mental illness is increasingly threatening the lives of our children; with Canada's youth suicide rate the third highest in the industrialized world.
- Surpassed only by injuries, mental disorders in youth are ranked as the second highest hospital care expenditure in Canada.
